Mr. Richard Ford, President & CEO
puraDYN Filter Technology Inc.
2017 High Ridge Road,
Boynton Beach, FL 33426

Dear Mr. Ford,

I find it necessary to write you this letter regarding your oil management product known as the puraDYN filter. I write very few testimonials, however I feel compelled to do so in this case. We started to investigate the advantages of your product over 6 years ago. I, by nature am a doubting Thomas and not easily convinced to go against the grain. After a test of 5 units and 50,000 miles each we now have installed over 120 units, and our fleet is 100% equipped. No unit will enter into service without a puraDYN installed on it.

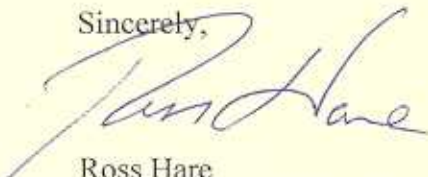

Today our units have in excess of 500,000 miles on the same oil. Our oil is now in the tractors to stay. The cost savings ranges from \$1200.00 on our single driver units to over \$2000.00 per year on the team tractors running over 250,000 miles per year. The fuel on identical units is .2 mpg better with the puraDYN units installed. This was measured through the ECM's fuel consumption rate at the fuel pump. This is just over a 2.5% improvement.

I am convinced that you truly have a product that warrants consideration by anyone who not only needs to reduce their cost, but is also concerned about the effects waste oil is having upon the environment.

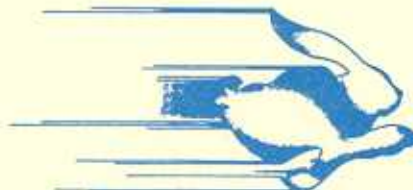

Our combined fleet mileage with the puraDYN filtration system exceeds 30 million miles and there has not been one oil related failure. We are looking for this product to solve many of the soot concerns in the 2007 engines.

Again, I wish to express my appreciation to you and your staff for all your help and wish you nothing but success in the future.

Sincerely,

Ross Hare
President
