WASTEQUIP NAMED EXCLUSIVE DISTRIBUTOR OF PURADYN® BYPASS OIL FILTRATION SYSTEM TO THE WASTE INDUSTRY

WASTE EXPO, ATLANTA, GA – May 9, 2007 – Wastequip, Inc. has become the exclusive distributor of the **puraDYN®** Bypass Oil Filtration System to the waste industry, according to a joint announcement by Puradyn Filter Technologies President and Chief Operating Officer Kevin Kroger and Wastequip Chief Executive Officer Robert Rasmussen.

Retrofitted to an engine or hydraulic system, the **puraDYN®** Bypass Oil Filtration System significantly lowers maintenance costs by extending oil drain intervals; reducing oil costs, engine wear, and equipment down-time; increasing engine efficiency; and lessening environmental liability.

This multi-stage system continuously cleans the lubricating oil by removing solid contaminants to below one micron in size as well as harmful liquid and gaseous contaminants and replaces the base additives in motor oil to maintain the proper total base number (TBN). **puraDYN®** is the only bypass oil filtration system that performs all three of these components in a single package. Keeping the oil continuously clean safely and significantly extends the time needed between oil changes.

“Wastequip is proud to be the exclusive distributor of the **puraDYN®** Bypass Oil Filtration System to the waste industry. With this innovative product, we are able to help our customers cut their operating costs and realize greater profitability in their operations,” stated Wastequip CEO Robert Rasmussen.

“We’re glad to be working with Wastequip in bringing our **puraDYN®** system to the waste industry. The system’s track record for reducing engine and hydraulic-related maintenance is the cost-reduction solution for the escalating oil costs currently being experienced by equipment fleets,” added Puradyn President and COO Kevin Kroger.

Wastequip is the leading manufacturer of waste handling, recycling, and material handling equipment with 37 locations throughout North America. Its products include all types of waste collection containers; intermodal, roll-off, sludge, and environmental containers; transfer trailers; roll-off, cable, and hook hoists; tarpers; vehicle-mounted vacuum units; and replacement parts. Information on Wastequip products and locations can be obtained online at www.wastequip.com or by calling 877 468 9278.

Puradyn Filter Technologies, Inc., manufactures the **puraDYN®** Bypass Oil Filtration System for use in the waste, transportation, construction, marine, agriculture, mining, military, and power generating industries. The company operating facilities in the United States and Europe. Information on Puradyn and its products is available online at www.puradyn.com or by calling 866 787 2396.

About Puradyn Filter Technologies Incorporated

Puradyn (OTCBB: PFTI) designs, manufactures and markets the **puradYN**[®] Bypass Oil Filtration System, the most effective filtration product on the market today. It continuously cleans lubricating oil and maintains oil viscosity to safely and significantly extend oil change intervals and engine life. Effective for internal combustion engines, transmissions and hydraulic applications, the Company's patented and proprietary system is a cost-effective and energy-conscious solution targeting an annual \$15 billion potential industry. **puradYN**[®] equipment has been certified as a 'Pollution Prevention Technology' by the California Environmental Protection Agency and was selected as the manufacturer used by the US Department of Energy in a three-year evaluation to research and analyze performance, benefits and cost analysis of bypass oil filtration technology.
