**Subject: PuraDYN Filter Technologies**

**Dear Pris**

This letter is in response to your questions about using the PuraDYN® filter system on a Perkins Engine and its effect on warranty coverage. The Perkins Warranty is not affected simply because of the use of another manufacturer's auxiliary device. The Perkins Warranty covers defects in material and workmanship provided by Perkins Engines. A customer may choose to use any of these devices without affecting its Perkins Warranty.

Should there be a failure on the Perkins Engine or a malfunction on the engine attributed to an aftermarket device, the warranty could be voided.

**Kind Regards**

**Russ Bane**
